165498

CS is designed only for JCSTR! -0.5

165514

Data collected from JCSTR, but another system is controlled -0.2

165682

Simulink schemes are missing -0.1

156361

Nonadaptive controller works absolutely wrongly even without disturbances.
Controller was not trained correctly. -0.3

156358

Adaptive system is oscillating too much. -0.1

156355

run controller(input) ??? -0.2

165552, 156357

"The neural network with 25 hidden layers and 5000 iterations gives us a
random variable as

'ans = -2.4237'" Why final value in Step is -2.4237??? -0.2

Nonadaptive controller works absolutely wrongly even without disturbances.
Controller was not trained correctly. -0.3

153026

No analysis, no conclusions. -0.3

156445

No results of nonadaptive controller -0.2

157379

"controller_adaptive(output), controller_adaptive(tout), controller_adaptive(P),
controller_adaptive(T)." ??? -0.2

These functions can be used only in Simulink

Nonadaptive controller works absolutely wrongly even without disturbances.
Controller was not trained correctly. -0.3

Step final value=0.218???

156942

controller_adaptive(input)=0.5605 ??? What does it mean???

controller_adaptive() function can be used only in Simulink -0.2

156360

Nonadaptive controller works absolutely wrongly even without disturbances.
Controller was not trained correctly. -0.3

165690

Simulink schemes are missing -0.1
